

ACTT empowering Educational institutions in setting up “SUSTAINABLE” and AFFORDABLE innovative learning solutions

By Robert Mafie-ACTT manager

We believe that quality education is a right for every child

Tanzania reality is:

- *Over 50% of children finishing primary school can barely read or write in English or Swahili.*
- *Teacher to Student Ratio*
 - *Tanzania 46:1*
 - *Internationally 25:1*
- *Students to textbook ratio is 5:1.*

Standard solutions

Cost of 1 New computer

One Computer lab per school

One computer lab

Innovative and affordable high impact solutions

Enough for 5-10 high quality refurbished computers

With Mobile PC lab could be spread to over 10 schools/year

Use of solar powered projector reaching full classrooms at a time with quality learning tools and within off-grid schools

AND THAT IS EXACTLY WHAT WE DO AT ACTT.

Financials and impact

Computer lab (10 computers, power protection devices + softwares) per	5 MILLION Tshs/school
Number of school reached so far	150 schools
Income 2015	394million Tshs
Gross profit 2015	114million Tshs
Number or impacted children 2015	30700
Cost of solar powered projector with laptop and software's	2.7million Tshs
Number projected to be reached with solar powered projector	20,000/ year

**TO REACH
2/3 OF
TANZANIA
SCHOOLS
BY 2025**
